

AYJ240426A01 Bernoulli's apparatus test equipment

The picture is only a reference

Manometer range: 0 to 300 mm of water. Number of manometer tubes: 8.

Upstream diameter of the throat: 25 mm. Narrowing:

Downstream: 21°.

Upstream: 10°.

Easy and quick coupling system built-in. Anodized aluminum/ MS powder coated structure and panel of painted steel.

Dimensions: 800 x 450 x 700 mm. approx. Weight: 15 Kg. approx. (33 pounds approx.)

Hydraulics Bench or Basic Hydraulic Feed System.

DIMENSIONS AND WEIGHT L x W x H: 600-x350 x 550 mm
