2.4 inches Digital Display
Visible at night with backlight.
Large buttons for accurate movement

Applications

Smaller and smarter for distance measurement
Widely used in:

- Road
- Runway
- Construction
- Agriculture
- Civilization
- Pipeline

Specification

Measurement
Accuracy: 0.01m/0.01ft
Range: 9999.99m/ft
Response Speed: 8m/s
Indicate Error: ±0.3%

Wheel
Diameter: 12inch/30.48cm
Thickness: 2cm

Height
Maximum: 96cm
Minimum: 51cm

Power Supply
Battery: 3xAAA Batteries
Working Hours: 56 hours
Consumption: 0.036/0.044W

Display Unit
Screen: 2.4 inches,
60*17mm with backlight
Keypad: 6 Keys

General
Memory: 100 points
Sleep Mode: in 20 seconds
Auto Off: In 2 minutes
Working Temperature: -10℃~+60℃
Working Humidity: ≤95%

Size
Weight: 1.98 kg
Dimension: 55cm*33cm*17.5cm
